

Car parking at our new clinic

Dear Patients,

We have worked closely with Gawler Council to make parking at our new clinic as easy as possible for you.

Multi-level car park with an enclosed patient walkway

Besides on-street car parking around Light Square, we have built an enclosed patient walkway that adjoins Level 3 of the adjacent multi-level car park to the rear of our clinic. This walkway has a roof and is accessible to all patients, including those with wheelchairs, walkers, or prams.

There are three entrances to the multi-level car park – each will have signage installed to help guide you.

The most accessible entrance for Level 3 is via Whinnen's Lane.

Limited under-building parking for patients with mobility issues

We will also have limited parking under our building for patients with mobility issues. Access to our clinic is via a lift.

We look forward to welcoming you to our new home soon!

Kind regards,
Hyde & Partners
